

LABORSHED PROJECT EMPLOYER REPORTING SHEETS

The Warren County Economic Development Corporation is continuing to work with Iowa Workforce Development to complete a Laborshed employment study. The study is currently in its second phase, the household telephone survey.

This confidential telephone survey is currently being conducted in Carlisle and Norwalk. The survey call originates out of Cedar Rapids, IA, therefore, the incoming number will have a 319 area code. If you miss the call a toll-free number will be left in a message to you. Feel free to call this number to participate in the study. Your participation in this survey will benefit economic development efforts in your area.

Questions in the survey will cover topics such as: employment status, current and desired wages, current and desired benefits, education level and type of occupation. Iowa Workforce Development will not be asking survey takers any identifiable information such as: name, social security number, or date of birth. Survey calls will continue into Carlisle and Norwalk and the surrounding areas until necessary survey levels are met.

The results for each county and regional Laborshed analysis can be found at www.iowaworkforcedevelopment.gov/laborshed-studies. If you have any questions about the Laborshed employment study project, please contact Katie Lippold, with Iowa Workforce Development at 515-281-3035 or Hollie Askey, with Warren County Economic Development Corporation at 515-961-1067.

Your participation in the survey is vital to the success of this study. Thank you, in advance, for your support.
